

Independent Application Answer Sheet

Name: _____ Date: _____

Use dimensional analysis. Show every conversion factor and unit.

1. Convert 1.50 mol NaCl to formula units.
2. Convert 3.011×10^{23} CO₂ molecules to moles.
3. Convert 18.02 g H₂O to moles.
4. Convert 0.250 mol CaCO₃ to grams. Use Ca = 40.08, C = 12.01, O = 16.00.
5. Convert 11.0 g CO₂ to molecules.
6. Convert 1.204×10^{24} NH₃ molecules to grams. Use N = 14.01 and H = 1.01.
