

CHEMISTRY | UNIT 03 | LESSON 03

Covalent Bonding and Molecular Compounds

Independent Application Answer Sheet

Name: _____ Date: _____

MLA standards: MLA.CHEM.BON.01 and MLA.CHEM.BON.02

Directions: Complete the PhET Build a Molecule activity as directed in Moodle. Record what you build and use particle evidence to explain each answer.

Part A - Build and record

Molecule	Formula	Atoms counted	Bonding evidence
Water			
Carbon dioxide			
Ammonia			

Part B - Explain

1. How does the molecular formula match the atoms in your model? 2. Why are these bonds covalent? 3. Compare one molecule with an ionic formula unit from Lesson 2.

Prompt	Student response
1.	
2.	
3.
