

Independent Application Answer Sheet

Name: _____ Date: _____

1. Use $2\text{H}_2 + \text{O}_2 \rightarrow 2\text{H}_2\text{O}$ to find moles H_2O from 4.00 mol H_2 .

2. Find moles O_2 needed for 5.00 mol H_2O .

3. Use $\text{N}_2 + 3\text{H}_2 \rightarrow 2\text{NH}_3$ to find moles NH_3 from 9.00 mol H_2 .

4. Find grams H_2O from 8.00 g H_2 .

5. Find grams CO_2 from 16.0 g CH_4 combustion.

6. Explain why the balanced equation is required.
