

CHEMISTRY | UNIT 02 | LESSON 02

Protons, Neutrons, Electrons, and Atomic Structure

Notebook Evidence - Independent Application

Student name:		Date:		
Standard:	MLA.CHEM.ATO.02	Submission:	Notebook Evidence - Independent Application	

Directions

Open PhET Build an Atom from the Moodle lesson. Use the Atom screen. Change only one particle type at a time. Record each completed atom below. This completed PDF belongs in the U2 L2 Notebook Evidence Submission.

Part A - Simulation evidence

Trial	Protons	Neutrons	Electrons	Element	Mass #	Charge

Required trials

1. Build neutral carbon-12. 2. Add one electron to carbon-12. 3. Build neutral oxygen-16. 4. Add one neutron to oxygen-16.

Part B - Explain the patterns

1. Which particle changed the element identity? Explain using two trials.

2. Which particle changed the charge? Explain using two trials.

3. Which particle changed mass number without changing the element?
