

CHEMISTRY | UNIT 03 | LESSON 03

Covalent Bonding and Molecular Compounds

Independent Application Answer Sheet

Name: _____ Date: _____

MLA standards: MLA.CHEM.BON.01 and MLA.CHEM.BON.02

Complete the PhET Build a Molecule activity using the exact Moodle steps. Record what you build and use particle evidence in every explanation.

Part A - Build and record

Molecule	Formula	Atoms counted	Bonding evidence
Water			
Carbon dioxide			
Ammonia			

Part B - Explain

1. How does each molecular formula match the atoms in your model?

2. Why are the bonds in these molecules covalent?

3. Compare one molecule with an ionic formula unit from Lesson 2.
