Nomenclature and Chemical Communication

Checkpoint Answer Sheet

Name: _____ Date: _____

MLA standards: MLA.CHEM.BON.03

Complete all items independently and show charge balance when required.

Given	Classification	Name or formula	Reasoning / charge balance
MgBr ₂			
iron(III) oxide			
N ₂ O ₄			
copper(II) chloride			
PCl ₃			

1. Show charge balance for iron(III) oxide.

2. Name N₂O₄ and explain both prefixes.

3. CER: Explain why precise nomenclature matters. Use two examples from the table.
