

CHEMISTRY | UNIT 03 | LESSON 07

Nomenclature and Chemical Communication

Independent Application Answer Sheet

Name: _____ Date: _____

MLA standards: MLA.CHEM.BON.03

Classify first, then apply the correct ionic or molecular naming rule.

Given	Ionic or molecular?	Name or formula	Exact rule used
NaCl			
FeCl ₃			
CO ₂			
calcium oxide			
dinitrogen pentoxide			

Explain

1. Why are prefixes not used for NaCl?

2. Why does iron(III) chloride require a Roman numeral?

3. How do prefixes communicate atom counts in molecular compounds?
