

Checkpoint Answer Sheet

Name: _____ Date: _____

1. Calculate the percent composition of each element in NH_4NO_3 . Use $\text{N} = 14.01$, $\text{H} = 1.01$, $\text{O} = 16.00$.
2. A compound contains 5.40 g Al and 4.80 g O. Determine its empirical formula. Use $\text{Al} = 26.98$ and $\text{O} = 16.00$.
3. Show the mole ratio before and after reducing to whole numbers.
4. Explain why percent composition should total approximately 100%.
5. State one rounding rule that protects the empirical formula from error.
